

MECHANICAL ENGINEER

Office Location: *Pittsburgh*

Salary: *Commensurate with experience*

Job Description

RPA Engineering is looking for a mechanical engineer to support building and facilities projects.

The candidate will focus on production of construction documents, including drawings and specifications for multiple project types: central plants, laboratories, hospitals, higher-education and commercial projects. In addition, the candidate will be tasked with completing studies and reports.

Ability to work independently and collaboratively with multi-disciplinary teams. The successful candidate will work in a supervisory and mentoring role with junior engineers and designers.

Education/Experience:

- Minimum of 10 years related experience in a MEP consulting firm
- Four-year mechanical engineering degree from ABET accredited university program
- Professional Engineering licensure in the state of Pennsylvania
- Demonstrated knowledge of current code and standards
- Knowledgeable in AutoCAD, Revit, Trane Trace or Carrier HAPS
- Energy Modeling experience is a plus
