

Project Engineer

Office Location: On-Site Lancaster, PA with some support in Hanover

Salary: Commensurate with experience

Job Description

Ideal candidate would be a project manager with industrial manufacturing experience in the food and beverage industry, with an A.S. in Electrical or Mechanical Engineering that has performed installation management. Experience with Conveyors, Ovens, Extrusion equipment and cGMP is preferable.

Education/Experience:

- A.S. Electrical or Mechanical Engineering
- Project Engineering experience in Food and Beverage industry.
- Strong experience focused in performing project management of projects from concept to closing primarily involving production related equipment and systems.
- Good understanding of manufacturing equipment and related systems, particularly in the same discipline as degree.
- Ability to analyze and identify relevant information to develop solutions or approaches for the purpose of designing and integrating important services, processes or systems necessary to solve equipment problems and issues.
- Minimum five years related experience.
- Familiar with the current building code a plus.
- Familiar with various software suites such as MS Word, MS Office, Excel, Access, MS Project, AutoCAD and Revit.

Skills and Special Requirements/Licensing:

- Excellent attitude, attention to detail and interpersonal relationship skills.
- Self-motivated and driven to succeed.
- Proven ability to handle multiple projects simultaneously, while addressing various other production equipment and system issues. Number of assigned projects could typically range from 5 – 10 projects at the same time.
- Ability and willingness to work additional hours on projects as required for satisfying client's deadlines.
- Good written and verbal communication skills.
- Exceptional time management and organizational skills critical.
- Very good planning skills.
- Very strong collaborative skills.
- Self-disciplined.
- Capable of working independently and within a team framework.
- Sensitive to client's needs and demands.
- Potential for weekend and holiday support based on project schedule.
- Ability to work within project budget and schedule requirements.
